

# Get The .srt File

A caption format you need.

## Creating .srt from [www.3cm mediasolutions.org](http://www.3cm mediasolutions.org).

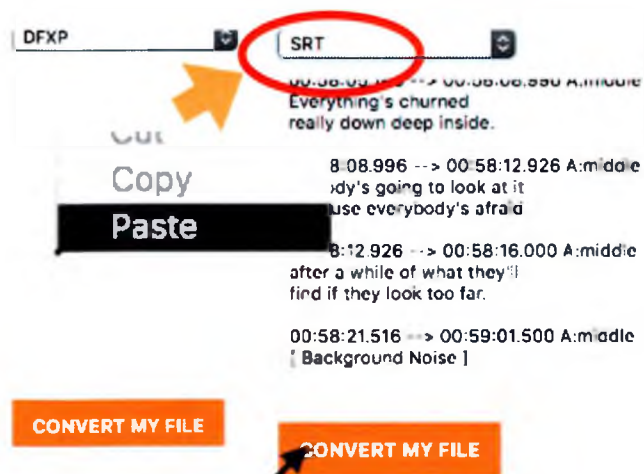

1. View the captions created by the 3CMediaSolutions
  - Login > My Account > Media > Choose video.  
(The DECT caption request must be completed at this point)
  - Click on "Edit Media" it is found below the video in the sentence that reads, "You can also download the caption file from the [Edit Media](#) page."
  - On the Edit Media page the link to the caption file will be available. Copy all of the text.

### Caption File

2. 3PlayMedia offers a free caption converter.

- <http://www.3playmedia.com/services-features/free-tools/captions-format-converter/>  
or [goo.gl/myGD9P](http://goo.gl/myGD9P)
- Paste the copied text into the text text field.
- Change the format to be "SRT"
- Click on "Convert My file"

3. Results

- The resulting file will be title similarly  
*captions\_output\_1517622993.srt*
- Change the name to match the video name.  
*World History.srt*  
*World History.mp4*

Now the .srt file can be use to make Open Caption files in [Camtasia](#) or [Handbrake](#).
